

SpareFoot.com Ad Network for Mobile Storage

SpareFoot is the largest independent storage search service in the US. We help consumers find the best storage for their needs by listing the services of our storage partners across our Ad Network, with useful search and comparison shopping tools. By providing best in class online marketing and more choice to consumers, we help small and medium sized storage operators work together and compete with the big guys on a level playing field!

For the past few years, SpareFoot has focused on self-storage, but we are in the process of launching a new Mobile Storage category. Our goal is to provide consumers with the best solution for their storage needs, which is often Mobile Storage. SpareFoot can help mobile storage operators overcome what may be the main challenge in marketing Mobile Storage - lack of consumer awareness.

By integrating Mobile Storage as a category on our storage websites, we bring awareness of mobile storage and provide more choice to consumers - a win win!

SpareFoot is partnering exclusively with the MS-SA to provide special “early adopter” rates to MS-SA members, and give you preferred provider status on our network.

How Does it Work?

Simple - a prospective customer in the market for storage will arrive at one of our websites and see an option for Mobile Storage along with information and tools that will help them decide if mobile storage is right for them. If it is, we'll help them find the right storage operator for them in

their area. Customers can then reserve a mobile storage unit by providing us with their information, either online or over the phone.

- Name and Contact Information
- Delivery Address
- Delivery Date
- Type of usage: Store at location, store at warehouse, or move to another location

Once SpareFoot has collected the reservation information from the customer, we will email it to you and, if desired, also insert it directly into a supported reservation system (e.g. SiteLink, CenterShift, Domico).

Fees and Payment Process

There is no set up or monthly fee to list your storage service on the SpareFoot Ad Network. SpareFoot charges only when we generate a paying customer for you. At the end of each month, we send you a report containing all of the leads that we generated for you that requested unit delivery that month. You have 6 days to tell us which leads cancelled or postponed, if any, before we bill you for delivered units. The marketing fee is \$85 per customer, and we automatically bill a credit card or debit your bank account.

Set Up Information

In order to set you up in our system, we need the following information:

- DBA name and corporate name (if different)
- Picture of your business logo
- For each operating area:
 - City, or warehouse zip code and service radius in miles
 - 3 or 4 high quality pictures of your containers, trucks, warehouse, etc.
 - Fees: drop off, pick up, on-site monthly rental, warehouse monthly rental
 - Available mobile unit sizes and fees
- Primary business contact information (general contact and invoices)
- Reservation contact information (where we send booking info)
- Software Integration (e.g. SiteLink, CenterShift, Domico, Storage Commander, DHS)
 - We will follow up separately to complete integration
- Billing Information
 - Credit Card #, expiration, name, and security code, OR
 - Bank routing and account number for automatic debit (use form below)

Complete the form on the next page and email or fax to the contact info below. SpareFoot will set up your information. We will contact you to finalize details prior to publishing anything online.
